Alp Celik

AI filmmaker and director. Trailers, commercials, visual effects and animation for studios and brands.

Creator Partner at Higgsfield
Miami, Florida

On my own, I grew my YouTube channel, Fantasy Future, to 4.7 million views in under two years.

I test new tools until I know where they break, and what works becomes a method I can repeat.

My own pipelines connect AI generation to DaVinci Resolve and Blender, so big projects move fast and stay consistent.

Selected work
